## Hearings To Be Held At Experiment Station

# Sugar Industry May Get New Wage-Price Controls

The U. S. Department of Agriculture (USDA) will hold a hearing May 23 on recommended wages and prices to be used by the Florida sugar industry for the coming season.

The wages and prices are set every year by the USDA as the result of such hearings. The hearing will begin at 9:30 a.m. at the Everglades Experiment Station on SR80.

To qualify for payments under the Sugar Act of 1948, as amended, producers must pay in full all persons employed on the farm in producing, cultivating, or harvesting sugar cane and at wage rates not less than those determined fair and reasonable by the Secretary of Agriculture after the hearings.

The act also requires producers who process sugar cane grown by other producers to pay not less than the price determined by the secretary to be fair and reasonable as one of the conditions for receiving Sugar Act payments on their own production.

These conditional payments are now being withheld from three area producers and the growers whose cane they grind because of charges they

hadn't been paying the \$2.15 per hour required under the present rules.

The charges arose from an investigation by a U. S. Department of Labor team. Frank Pope, director of the state Agricultural Soil and Conservation and Stabilization Service Committee, said another investigation is now taking place.

Pope said the committee has asked for an investigation by the USDA Office of Investigation, following the decision last week not to use the report prepared by the Department of Labor.

In the meantime, Pope said the committee has also asked the USDA to postpone the annual meeting scheduled for next week, pending the outcome of the investigation but said the committee has received no reply.

But while the state committee is still investigating the timekeeping practices of U. S. Sugar Corp., Sugar Cane Growers Cooperative of Florida Inc. and Atlantic Sugar Association, payments to the other area producers have been released.

This released approximately \$3 million in payments to four producers and their associated growers and \$5

million is still being withheld.

Concerning the meeting set for next week, the USDA is soliciting views and data on the need for additional worker classifications, wage rate differentials among different worker classifications, earnings of sugar cane cutters for each employee of foreign workers, timekeeping practices and procedures for determining the quantity of trash in mechanically-harvested cane.

Labor officials stressed several times during the local hearing they had found no indication the growers weren't paying the \$1.30 per hour wages the federal government requires all agricultural workers to be paid.

But they claimed, a quick investigation last November indicated the three companies weren't paying the \$2.15 minimum required by the Sugar Act.

USDA Wage and Hour Division investigator Solomon Sugarman said the three companies practice timekeeping methods which subtract an average of an hour per day from the workers' time worked.

Industry officials at the hearing

argued their time-keeping methods are as accurate as can be expected, that an inadequate investigation had been made and conclusions were erroneous, in part, because of the time of year the investigation was made.

The growers and USDL officials agreed on one point, however. Neither wanted to turn a copy of the investigation over to the committee to use in determining whether the charges are true and what action may be taken.

Cooperative President George Wedgworth asked the committee to delay any action until cooperative to keep the committee from using the report.

He was joined by Edwin Salvers, an attorney for the USDL office in Atlanta.

By Monday, both Wedgworth and Salvers had reached the conclusion the damage had already been done and further legal action would be pointless.

But Wedgworth said he was still making an official objection to the use of Sugarman's file. Sugarman said at the hearing he probably wouldn't have shown it at the hearing if he had known in advance the committee would require the file.

During the hearing, Wedgworth and other industry spokesmen objected to the way the entire action had been carried out, from the investigation through the hearing.

He and others said they felt and findings made by Sugarman's team should have been discussed with supervisory personnel before any other action was taken.

U. S. Sugar Vice-President in charge of personnel Fred Sikes said he had looked forward to cooperating with the USDL team but said the cooperation was all one-sided.

"It is strongly felt," Wedgworth said, "that some kind of discussions should have been held before the report was given to the USDA (U. S. Department of Agriculture), which received and acted on the report."

"I also believe copies of the report, which we still haven't seen, have been given to the members of press and Florida Rural Legal Services."

Members of the state ASC committee decided Monday morning to release payments to all members of the Sugar industry except the three producers and their affiliated growers.

## Chamber Votes To Help Recruit A Baby Doctor

The Belle Glade Chamber of Commerce's Board of Directors voted Tuesday night to help subsidize an obstetrician planning on coming to Belle Glade.

The vote was unanimous to pay one month of Ahmed Barouni's office rent. The idea was presented to the board of the Chamber President Ben Clarke who is also the administrator at Glades General Hospital.

"I'm going to try and disassociate myself from any personal feeling in this, although it will be difficult to do," Clarke said in his opening remarks.

"You may have heard rumors or statements of fact over the past year or so that the hospital had closed its obstetrical ward," Clarke said. "In fact this is not true. The fact is no local doctor will accept obstetrical patients."

"Now, in the past year we have had 20 births. But these have been from walk-ins, usually first births, with poor or no pre-natal care."

"A town the size of Belle Glade needs an obstetrician and gynecologist. I have been working a lengthy time getting an Ob-Gyn man for Belle Glade."

"I have finally found a man who is willing to come here. He

has finished three years of residency in OB and is just finishing a fourth year in gynecological oncology. This is the study of tumors in women."

"He is highly qualified. He is 32, single, but is planning on becoming married in August. Having gone to school for the past 24 years he is low on funds."

"I have fallen heir to the task of bringing him here. He has asked for financial help. I have talked to people about an office and about a place to live. I have worked up a deal with an equipment supply house which is doing it as a favor to Belle Glade."

Clarke said he also had a few people lined up who were willing to pay one month's rent. He said he didn't know what one month's rent would cost, but he was posing the question to the board as to whether or not it wanted to consider some form of assistance to entice this physician into coming to Belle Glade.

"This is being done all over the country by businessmen, chambers, especially where there is no doctor at all," said Clarke.

"...And They Shall Reap The Whirlwind"

Wind blew and rain flew Tuesday. Lights went out and at least one tent came tumbling down and when it was all over, The Bible Palace, housing a revival being held on Southwest Avenue E by Seventh Day Adventist minister Oliver J. McKinney Jr. and Evangelist Thom Smith, lay draped over folding chairs, tent poles and the pulpit. McKinney and Smith told city officials they would either get a new tent or repair the 40 by 60 foot version run by the storm. In any case, they expected Wednesday morning to have the city's approval and holding services by Sunday morning.

## One Million Gallon Unit

# Northeast Sewer Plant Proposed

A one million gallon capacity sewage plant may be one of the first recommendations made by the city's consulting engineers following a partial lifting of the Belle Glade sewage moratorium.

The moratorium, which January 1972 forbidden the

addition of more units to the city's sewage system and which has stifled building of residence in the city, was partially lifted Monday.

But the Temporary Operation Permit issued Monday by the state Department of Pollution Control regional office in Fort Lauderdale carries a total of 13 conditions.

The permit was issued Monday and A.J. Birchall, an engineer working Briley-Wild and Associates, the city's consulting engineers, said he had a chance to discuss the

provisions with City Manager William Mallory.

Tuesday, after looking over the conditional permit with Birchall, Mallory said he is taking a "cautiously optimistic" viewpoint.

"We will probably be able to turn loose Roe Steele with his eight poles, and other builders," Mallory said, and hook in Belle subdivision by about June 1."

Mallory said a recent survey taken by the city indicates approximately 840 units will be built and hooked into the

sewer system during the next 18 months.

One of the key conditions listed in the permit is that, with a list of certain exceptions, "there shall be no additional flow in any portion of the connected regional service area."

Following a list of exceptions, the permit states connections, "are to be made only after the City of Belle Glade has submitted an acceptable method of monitoring and reporting connections to the Palm Beach County Health Department Local Program on a monthly basis, so as not to exceed the Temporary Operation Permit pollutant discharge limitations."

The permit states connections shall be made prior to recording the flow of sewage into the plant with the consultant engineer.

In the same list of exceptions, however, is one Mallory said the city would like to have had for the past several months.

It states connections may be made which do not increase the average discharge of pollutants from the facility permitted beyond 167 pounds of biochemistry oxygen demand (BOD) and 167 pounds of suspended solids.

"If we had had this type of requirement all along," Mallory said, "we'd at least have known what we were shooting for."

## Rogers Resigns As Bank President

Florida First National Bank of Belle Glade President Frederic D. Rogers resigned his position with the local lending institution last week.

Although unconfirmed at press time, Rogers will apparently be replaced by John Turnbull, an officer of the Florida First chain of banks who has been living in Boca Raton.

Reports were that the bank's board of directors was to have met Wednesday afternoon to decide whether Turnbull, who has been at Rogers' old desk since Monday, should be

installed temporarily, permanently or at all.

Rogers moved to Belle Glade as an officer of the bank seven years ago and took over the position of president.

Before coming to Belle Glade, Rogers was an officer of the First National Bank of Louisiana in Shreveport, La. and prior to his banking career, was a studio musician.

He is originally from Syracuse, N.Y. and has one son, Frederic Rogers Jr. His wife, Eleanor, is employed by the Palm Beach County School system.

Art Show Begins

Opening today at Florida First National Bank is the Annual Show the Monday Evening Painting Group working under the instruction of Margaret O. Earwood.

This will be the 18th show this group has participated in, having started

with Mrs. Earwood under the Adult Education Program 16 years ago. The group now works on a weekly schedule at Mrs. Earwood's home. The work this year shows a real professional approach to painting

## \$1.7 Million Needed To Fix Water System

A capital outlay of almost \$1.7 million will be required to put the city's water system in condition to handle its commitments according to a just-completed water study.

The study, made by Briley-Wild and Associates consulting engineering firm ends with the conclusion immediate modifications should be begun and completed by June 1 to put the system on its feet.

"The water system of the City of Belle Glade," the report reads, "is in need of improvements if it is to maintain an acceptable level of service to the users."

"Finished water quality is not acceptable to certain industrial users and the distribution system does not provide adequate flow and pressure to all users at all times."

The \$8,000 study was commissioned by the city following a No. 12, 1973 meeting in which a list of shortcomings in the system were mentioned.

Complaints were heard then, and the study confirmed, that the city was failing to deliver the quality and quantity of water under the required pressure to two industrial sites in the city serves.

The first site is Glades Correctional Institution, which has increased its daily consumption from 120,000 gallons in 1965 to a 1973 average of 25,000 gallons.

The second site is the Quaker Oats furfural plant and Sugar Cane Growers Cooperative of Florida sugar mill, both under going expansion programs, which is expected to increase average daily consumption from the current 900,000 1.1 million gallons to 2.25 million gallons over a long-term period.

Briley-Wild said expected residential growth will also mean another increase in water use of 500,000 gallons per day by 1980, upping domestic use to as much as 2.75 million gallons a day.

Briley-Wild is recommending four phases of modifications to the city's system in three areas: the raw water intake, the treatment plant and the distribution system.

The four phases are designed to give both short and long term relief to the city and the engineers also recommend that, since they will benefit to varying degrees, GC1, Quaker Oats and the Sugar Cane Growers Cooperative should help pay for part of the improvements.

Briley-Wild suggests the commission ask GC1 to pay for \$18,500 worth of the total work. Quaker Oats and the Cooperative be assessed \$370,375 of the total \$1,693,000 possible cost and the taxpayers be assessed \$1.3 million to pick up the rest of the tab.

Should the commission accept the engineers' recommendations, work would begin immediately on Phase 1, which provides for a lime-soda softening facility at the plant to provide relief for the coming summer.

The facility, which would be installed June 1, would increase the quality of the water during the period the quality is usually at its worst because of the low lake level in June, July, August and September.

The cost for Phase 1 would be a maximum of \$25,000, with operating costs jumping as much as \$58,450 a year.

Phase 11, costing an estimated \$490,000 more, would also begin immediately and would include a 12-inch line running parallel to Airport Road in addition to the one already there, and a storage and pumping facility in the Northeast section of town.

Phase 111 would also begin immediately and would consist of constructing a new raw water intake off the northeast bank of Kramer Island.

This would be the most expensive phase and would cost as much as \$950,000. It would be completed by June 1, 1975.

## That Ain't Good

It was a relatively easy job to get the men on the moon.

The thing about getting a man on the moon was that you knew what the goal was. The idea was to pick up one or more men at point A, get them to point B and back to point A. Point A being the earth and Point B being the moon.

So why can't we take care of our own sewage and other pollutants?

The more we see, the more we believe it's because the people in charge can't agree on where Point A is, much less where Point B is.

Which makes it kind of difficult for the people trying to live by the rules. Nobody minds playing the game but nobody can agree on the ground rules.

The Temporary Operation Permit the city received this week from the State Department of Pollution Control's Regional Office in Fort Lauderdale is a case in point.

Since a moratorium was slapped on the city's sewage system by the DPC in January 1972, effectively stopping the construction of residential units, all kinds of rules and requirements have been changed.

There was the waiving of the construction permits usually required before construction can be done on sewage plants. Now we need those permits.

There was the changing of the point at which BOD (Bio-chemical Oxygen Demand) is measured from the post-chlorination stage to the pre-chlorination stage and back again.

This brought the measured efficiency of the plant down from 90 per cent to 40 per cent and back up to 90 per cent, all because DPC officials said BOD removal wasn't the primary job of chlorination, although the BOD was removed.

There is the sudden revelation the city needs a permit from the Central and Southern Florida Flood Control District to discharge from the plant into Hillsborough Canal.

There is the just-as-sudden revelation the city must plan on having no discharge at all into the canal, or any other surface waters, within a year.

Luckily, the city was able to get within this requirement already.

And the list goes on.

The most amusing of the 13 conditions riddling the temporary permit is that the city must come up with a monitoring system for checking connections and reporting on a regular basis to the county DPC officials.

Reading between the lines, this may or may not mean a permanent requirement that the city must have the approval of the DPC before making connections. It could be a requirement the DPC will want to retain or it could be temporary.

It would mean in effect, the city will never again have the right to freely govern construction of housing in the city.

That would be another mark for Big Government Control at the expense of local government.

And that ain't good.

## Bounding, Bounding Over The Bilious Main

I found out Saturday what the old salts mean when they talk about going sailing over the bounding main.

A group of us newspaper types from the Herald, the Clewiston News and the Glades County Democrat decided to get away from the big lake and try on blue water fishing for size.

And the blue water was mainly bounding.

They called it driftboat fishing, something I've tried before and I'm still battling 1,000 haven't caught a thing yet but at least now I can talk about the big one that got away.

That's more than some of the people can say. When I said the bounding main, that's exactly what I meant and if you don't believe me, you can ask Louise, Glenn's wife.

She was one of about half a dozen people who spent the entire trip flat on their stomachs except for the time they spent staggering to the head to unload breakfast, the previous day's meals and anything else that might have been hiding in their plumbing.

I don't think there were more than five or six of us who didn't have any trouble at all with our stomachs doing flip flops but there were a few who never should have left the dock.

Matter of fact, I never thought I'd see the day when Dave Wilson, a printer for the Clewiston News, would turn down a beer not once but a whole heap of times.

He was one of several who never actually got that sick but did keep a sort of green tint around their lips.

The heroine of the trip turned out to be a sweet young thing named Josie Davis, who went along with our bookkeeper, Leigh Lee.

Josie hooked and boasted a couple of nice ones, a bonita and a king, before anyone else even had a nibble, quickly becoming the target of some muttering from the Clewiston gang without throwing the Belle Glade people overboard.

I'll say one thing for Josie, though. She has the wildest fighting stance I've ever seen when she's fishing or when she has one hooked.

She plopped her duff down on the deck, crossed her legs and waited for a bite. When she got one, she got a determined look on her face and started reeling in, yelling "I think I've got something," as her rod bent double.

Like I said earlier, I'm maintaining my perfect record but I did get into quite a battle with something. That heavy rod bent over and I started reeling in and the line was still just a singing as the finny fiend made for parts unknown.

I tightened down on the star drag and started reeling again and I don't think I fazed the fish. He just kept going so I tightened down on the drag again and finally started making some headway.

It was him and me and mostly him for about 10 or 15 minutes but just about the time I had him close to the boat, and my arm was wearing out from reeling, I lost him.

One good thing about it. Nobody really had a good look at the fish, although we did see some flashes of white fatty deep, so I can build him up to a young Moby Dick and no one can call me a liar.

I would like to take this opportunity to quash some scurrilous lies already

## Relay Team

## UNDERSTANDING OUR ECONOMY

## THE INCREASING VALUE OF GOLD

The rise in gold prices on international markets makes your gold jewelry more valuable, gold dentistry more expensive, and countries that own gold financially stronger.

In Mexico, for instance, the rise in gold prices on international markets has strengthened the position of Mexico's monetary reserves.

At the end of 1973, the nation's monetary reserves reached an all-time high of 2.2 billion dollars. Of this amount, 1.2 billion dollars (16.5 billion pesos) are in primary reserves while the remainder consists of secondary reserves or special drawing rights with the International Monetary Fund, the U.S. Treasury and other international institutions.

According to the Mexican law, 80% of the primary reserves must be in gold and international currencies with 20% in silver.

The rise in gold prices benefits Mexico considerably because it increases the value of reserves," according to Jose Lopez Portillo, Mexico's Treasury Secretary.

He reiterated that the spectacular rise in gold prices will not effect Mexico's policy of maintaining the parity of the peso to the dollar at 12.50 to 1. He flatly rejected any suggestion of devaluation of the peso, asserting that the rate has been maintained for 10 years out of change.

In October 1973, both Mexico and the United States registered documents

with the International Monetary Fund and other financial institutions setting the "par value" of the peso at 69.853 grams of fine gold and the U.S. dollar at 37.662 grams of fine gold.

The difference between the two currencies is the basis of the change rate of 12.50 to 1.

For Mexico during 1974 it considered bright if inflationary pressures created by the international energy shortage can be kept within limits. Lopez Portillo predicted this will be a key year for the nation's development and said that success will depend upon three crucial factors: a reduction of currency in circulation; maintaining equilibrium of prices and wages; and increasing productivity.

In addition to Mexico's record high reserves of gold,

silver and international exchange, another reason for confidence of government officials in the country's economic prospects is the outlook of the oil industry.

Despite the growing energy requirements of the fast expanding industrial sector over the past two decades, the country is expected to be completely self-sufficient in energy before the end of the year.

Mexico could have profited by speculating in gold as the yellow metal made its dramatic rise over the past year but the government respects its international agreements and therefore refrains from any such activity.

**GOLDEN RULE**  
In a sense, the Golden Rule: "Whatever ye would that men should do to you, do ye also unto them." (Matt. 7:12)

# off the record

with Glenn Loney

Ed Gurney and Bill Heidman are coming to town this weekend as guests of the Glades Republican Club.

Both men probably have more support right here in the Glades than anywhere else in the state as far as Gurney goes and the county where Heidman is concerned.

Both have been editorially attacked by some of the larger newspapers in the state. Gurney has made a particular enemy out of The Miami Herald-recognized as one of the top 10 newspapers in the entire country.

I'm sure a pleasant visit to the Glades with the possibility of leaving Watergate and other major problems behind will be a welcome change of pace for both men.

The Chamber of Commerce took what for it is a bold step.

Its board of directors voted to subsidize an obstetrician skilled in the treatment of cancer in females as well as to the tune of one month's rent. This is being done by communities all over the United States as pointed out by Chamber President Ben Clarke.

Of course, Clarke has a vested interest in the man coming to Belle Glade since he is the administrator of the local hospital-a hospital which has lacked for several months a local doctor which would handle obstetric patients. But before anyone starts accusing him of ramrodding something through the Chamber for his own selfish interest-let's state for the record right now this was not the case.

It is difficult to convey in a news story the feelings of some of its main characters. In a news story no editorializing is to creep into the writing. But over here on the editorial page we can say anything we want to-within reason, of course.

I can assure you Clarke tipped over the subject like a French Madam walking through a den of skunks. He brought no undue pressure to bear as administrator of the Chamber. As a matter of fact he didn't present the case strongly enough because of the conflict of interest.

But he did present it because he was the logical one to do so-it has been Clarke who has been working for more than a year to bring in a OB man. It

has been Clarke who has continuously watched prospective doctors decide to go to either coast rather than settle in Belle Glade. And finally, it has been Clarke who has finally gotten the ball rolling on this man.

I have to agree with Lee Berryhill when he said that the Chamber couldn't spend \$400-\$500 in any other area that would do the community more good.

Just to set the record straight, the man Clarke feels will definitely come to the area is named Amhed Baroush. He's 32 years old, single, but plans to get married in August.

Sure-five years from now he should be able to buy just about half the town. But right now he needs our help and Belle Glade needs him.

I certainly hope other community organizations will follow the Chamber's lead.

Hey-you think we have it bad. Just look at all the other countries which are in just as bad a shape as we are-in some ways.

Most recent to topple was Monsieur Pierre Elliott Trudeau of PET as his admirers call him. Seems as if his admirers became a minority group and Pierre had to fold up his tent and steal away. Canada will be holding new elections soon to elect a new leader.

While Canada is close at hand-Europe is having its problems across the sea.

France lost George Pompidou to death and now is in the process of electing at least a socialist. The French Communist who have been bidding their time for so long must be licking their collective chops.

And then, of course, there was Harold Wilson who lost his seat of power in England. And Willie Brandt, poor fellow, resigned over a spy in the closet.

But here is one I'll bet you didn't know about. Next time you need a trivia question ask who was the northernmost leader to lose his seat of power in the past 30 days.

The answer-Olafur Johannesson, of course, who you might ask. And well you might.

But nevertheless he is-or was-the Prime Minister of Iceland.

And we think we're the only country with problems.

See you next week.

## TAKE A FLORIDA ORANGE JUICE BREAK

Plenty recommended here as a cure for drunkenness-a rather drastic cure.

## CRACKER CRUMBS

BY DEAN JONES

making their way around town.

I categorically deny the vicious rumors that I got mad when I lost the fish, looked around for the littlest person I could find and beat up on the boss's eight-year old daughter.

Kristine was having a good time all morning, getting four or five people to help her handle her tackle and it wasn't until several hours later that I knocked her tooth out accidentally.

I'll have to admit I've always had trouble with my footing aboard a boat when there's anything larger than a two-inch swell running and there were six-foot seas running Saturday--with the crests of the waves about five feet apart.

Kristine and a couple of her buddies had found that right in the bow, you get a ride like a roller coaster when the boat's under way, and when she called me to come join the fun, I had to go.

It was about noon negotiating the deck a step at a time and when I finally got there, her and her friends, they yelled it would be better for me to either sit down or get down on my knees but it was too late.

The deck dropped about four feet

and when my feet hit it again, they went out from under me and when I went down, I accidentally cracked Kristine's head against the rail.

She was a little soldier about it though and stuck the tooth back in it's socket a few minutes later. An oral surgeon in West Palm Beach said there's a chance she'll be able to keep it.

I'd never heard of such a thing, but Dr. James Stewart, who was kind enough to open his office to us, said there's a good chance of saving a tooth now by sticking it right back in.

It was a bad day for the Laney's but I guess it could have been worse. Glenn was supposed to go but couldn't. If he had, there's no telling what might have happened. We might be looking for a new publisher now.

Now to go over the sunburn.

The cars begin to line up at the only station in town with gas. A nice-looking man wearing a service station attendant's uniform begins taking orders.

First your license tag number is

written on a receipt with your name and the amount of gas you want. He figures your bill and you pay this attendant, in cash, for a maximum order of \$5.

This, you are told, makes the line move faster.

This actually happened and by the time everyone figured out what was happening, the nice attendant had disappeared with well over \$100 in his pocket.

Not bad for a few minutes of his time.

A black box is connected to the home circuit breaker to give appliances and all motors a longer and more efficient life.

It is claimed to "reduce" the overall electric bill by evening out the electric surges normally occurring in electric wires.

The exterior of this black box has the "UL" approval in plain sight, although Underwriters Lab never heard of the firm and it wasn't on their list to be checked.

If the bottom panel is removed, you can see the "transistorized circuit panel." Best of all, it sells for just over \$100 and a rental agreement can even be arranged.

When you dismantle the mystery box you will find, lo and behold, a granite-hard substance covering two resistors and a circuit panel that isn't connected to anything--just put in for show.

Needless to say, the chances of it saving any money are slim.

Like Ole P.T. Barnum said, there's one born every minute and as long as suckers are born, there'll be con men around to take advantage of them.

## Miss Edens Engaged

VICKI LYNN HOOKS, SAMMY VAL EZ TELL  
...of engagement and wedding plans for May 23 here.

### Hooks-Valez To Wed

Mr. and Mrs. James Hooks of 901 Whitaker Road announced this week the engagement of their daughter, Vicki Lynn, to Sammy Valez, son of Mr. and Mrs. Francisco Valez of 880 S.E. First St.

Miss Hooks is a senior in the adult education night classes held at Glades Central High School annex. The groom-elect is an employee of Watson Ford Co. and has completed courses at adult education night classes. The wedding will take place at 7 p.m. May 23 at Saint Philip Rm Catholic Church. No formal invitations are being sent out but all friends and relatives of the couple are invited to attend both the ceremony and the reception following in the church social hall.

PAMELA KAY EDENS, STEVEN RAY HAWK  
...announce engagement and June wedding plans.

Mr. and Mrs. Robert L. Edens of 617 S.E. Seventh Drive of Belle Glade announced this week the engagement of their daughter, Pamela Kay, to Steven Ray Hawk of 391 E. Second St. in Pahokee. The groom-elect's parents are Mr. and Mrs. Ray Hawk Jr. of 391 E. Second St. in Pahokee. Miss Edens attended Glades Day School in Pahokee. She is presently employed at Everglades Federal in Belle Glade. Hawk was a graduate from Pahokee High School in 1971. He is majoring in Dental Lab Technology at Palm Beach Junior College and will graduate in June. He is now employed at Jim Herring Chevrolet. The wedding is scheduled for 7 p.m. at the First Baptist Church in Belle Glade.

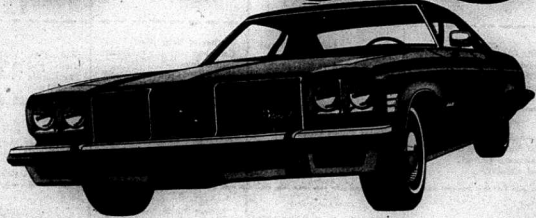

In Sweden, flints were considered a protection against elves—they always worked, too.

We're

five-years

# Olds

This month marks our fifth year and to celebrate our anniversary, we're giving our customers the presents. Crisp five-dollar bills. Here's how. During May, bring your car and let's talk trade. One of our sales representatives will make you a special 3th Anniversary Deal on a new Chevrolet or Oldsmobile. Test drive the car of your choice and then ask for the trunk key. Inside you'll find one, two, three or more five dollar bills, your's free without obligation just for letting us make you a deal and test driving the car.

\*Prizes will be interchanged among cars, no money left in cars after hours.

## GLADES CHURCH NEWS

THE HERALD WELCOMES NEWS ITEMS FROM YOUR CHURCH EACH WEEK.  
CALL 996-2056 NOT LATER THAN TUESDAY NOON FOR PUBLICATION THURSDAY.

### Phillips Funeral Services Held

#### Chicken Dinner Scheduled

The Church of God of Belle Glade is having a chicken dinner Saturday from 11 a.m. until they sell out.

The dinner will be served on the grounds at 301 S.E. Ave. E. and will include fried chicken, green beans, potato salad, rolls and iced tea.

Plates are \$2.50 each and may be ordered by calling 996-2122.

The church Sunday School is sponsoring the dinner.

Funeral services for Mrs. Edgeline Phillips, who was a Glades resident for the past 34 years, were held Monday at the Mixon Funeral Home Chapel.

Mrs. Phillips, 81, died in Glades General Hospital May 11 after a five month illness. She was born in Vidalia, Ga., was a Baptist, came to Belle Glade in 1940 and made her home at 508 N. W. 14th St. For several years, she was associated with the housing authority at Ocoola Center.

Survivors include four sons, Herbert Phillips of Jupiter, Jack, Twigg and Eugene Poy Phillips of Belle Glade; four daughters, Mrs. Addie Ussery of Palatka, Mrs. Betty Lewis,

Mrs. Ella Vein Betzner and Mrs. Allene "Blondy" Parrish, all of Belle Glade; one brother, Cleveland Wilkes of Vidalia, Ga.; a sister, Mrs. Florence Roberts of Ormond Beach; two step-children, Mrs. Novie Lee Jenkins of Belle Glade and Mrs. Elisha Phillips of Soperton, Ga.; 21 grandchildren and 22 great-grandchildren.

The Rev. E. Jack Matthews of Miami officiated at the funeral services.

Palbearers were Bill Brewer, Hubert Anderson, Bobby Soles Mack Barrowell, James January, Lorenzo Connell and George Burch.

Burial was at Foreverglades Mausoleum Gardens in Belle Glade. Mixon Funeral Home was in charge of arrangements.

### Macia Rosary Said

Rosary was said Friday for Mrs. Dulce Maria Macia at Mixon Funeral Home Chapel and Mass was held Saturday at St. Philip Benizi Catholic Church of Belle Glade with

Father Paul Saghy officiating. Mrs. Macia died at her residence at 900 East Canal St. Friday morning after several months illness.

She was born Mar. 3, 1936 in Los Villas, Cuba and was a member of St. Philip Benizi Catholic Church. She had been a secretary for Gulf and Western for several years and had lived in Belle Glade since 1960.

Survivors include her husband, Jorge Macia of Belle Glade, two sons, Jorge Macia Jr., and Antonio Macia of Belle Glade; a daughter, Miss Dulce M. Macia of Belle Glade; her parents, Mr. and Mrs. Antonio Hernandez of Belle Glade and one sister, Mrs. Lourdes Albury of Lake City.

### Car Wash Set

Members of the Mt. Zion A.M.E. Church Youth Department will be holding a car wash all day Saturday at 983 S.W. 10th St. on the church grounds.

Youth Department Director Mrs. Maude Vereen, who is chaperoning the car wash along with pastor, the Rev. Charles Robinson said the teens will be charging \$1.50 for a car wash and \$2 for wash and clean.

### In Memorium

MARK MERRILL  
...remembered by uncle.

In memory of Mark Merrill, Gone 2 yrs. this May 22. "Live and let live" were the words he wrote, and to us who love him, they mean as much as any words every written.

Although he was young, only a boy, he found time for everyone and brought all of them joy.

His head was full of ideas and dreams that someday he'd start, most of them made sense, but I'd laugh at them a lot.

There were a million things he'd plan to do and he'd add to the list everyday, but when it came down to doing just one, he'd have football or something else to play.

But ask him for help and he'd be standing near. He was my no. 1 partner and to me he was so dear.

The memories I have of you, nothing can take away and you enter my mind each and everyday.

I'll always remember the things that we've done and one day we'll be together and have more and more fun.

Thoughts from a loving uncle,  
Gary Davis

## Belief Sets an Unbelievable Example

No one knows how far the ripples from a stone, thrown into a stream, will travel.

No one knows how far the thoughts you have ... and the things you do ... will go to influence someone else.

Some scientists say that for every action, the reactions continue forever.

When you pause to pray for guidance, someone besides God may be watching and listening.

When you thank Providence for your blessings at table, some little hearts may take more heart and thank God for their blessings, too.

When you stand straight and tall to salute the flag on passing, small watchers

may stiffen their backs, too, and add their salutes to the ideals of democracy.

When you bend down to lift a neighbor out of despair, someone may be watching to give you a helping hand.

Your belief in good serves as a generator to re-creates power in yourself and others. Your belief in justice and right makes these ideals more attainable for people everywhere.

The greatest thing about belief is its unbelievable power and growth. Your belief alone sets an unbelievable example that never ends on this Earth.

You'll be setting an example when you go to your place of worship this week.

IN RE: THE MARRIAGE OF

SALVATORE F. MARGIORE,

and

MARGUERITE M. MARGIORE,

Wife.

NOTICE OF ACTION

TO: MARGUERITE M. MARGIORE,

23-33 Dunbar Road,

Fair Lawn, New Jersey 07410

YOU ARE NOTIFIED THAT a Petition for Dissolution of Marriage has been filed against you in the above named Court, and you are required to serve a copy of your answer or pleading to the petition on the petitioner's, 2331 N. ALHAMBRA, C/O, of Atlantic Beach, Florida 33462, and file the original answer or pleading in the office of the Clerk of the Circuit Court in and for Palm Beach County, Florida on or before May 27, 1974.

If you fail to do so, judgment by default will be taken against you for the relief demanded in the petition.

WITNESS my hand and seal this 15th day of April, 1974.

HONORABLE JOHN B. DUNKLE, Clerk

Circuit Court of the Fifteenth Judicial Circuit, in and for Palm Beach County, Florida

## Mildred Parker Becomes Mrs. Brooks

Bette Mildred Parker and Timmy Eugene Brooks were wed Thursday in a candlelight ceremony conducted at her home at 945 Northwest Fourth St. in Belle Glade.

The Rev. Abe Castor, pastor of the Everglades Presbyterian Church, performed the double-ring ceremony in front of a 15-branch arched chandelier flanked by lady palms.

The bride is the daughter of Mr. and Mrs. George T. Parker and the bridegroom is the son of Mr. and Mrs. T.E. Brooks, 1416 N.W. 12th St. in Belle Glade.

Michael Gressinger served the groom as best man. Mrs. David Spooner was her sister's matron of honor.

Ushers were Thomas Brooks, brother of the groom, and David Spooner, brother-in-law of the bride.

Miss Leslie Ann McElhenny, cousin of the bride, was the flower girl. Thomas Marion Spooner, nephew of the bride, was the ringbearer.

Mrs. Robert Roadman, pianist, played a program of nuptial music preceding the ceremony and accompanied Mrs. James McElhenny, cousin of the bride, who sang "One

Hand-One Heart" and "The Wedding Prayer."

Given in marriage by her father, the bride wore an ivory silk organza gown with empire bodice and pin tucked yoke.

The high ring collar was encircled with Venice lace as was the waist and bands on lattern sleeves and cuffs.

The A-line formal length skirt had a lace detail of a reingote effect. The lace continued around skirt forming a chapel train.

The matching ivory veil was edged with lace and held in place by a Camelot headpiece. She carried a cascade of marguerite daisies and blue corn flower.

Out of town guests were Mrs. Coty Kane of Warwick, Ga., Mrs. Larry Parrish and Mrs. Sanford Abowd of Immokalee, Mrs. Robert Parker of Fayetteville, N.C. and Mrs. Barney Collier of J&S Park Estates.

Following the wedding, a reception was held on the outdoor patio at the home of Mrs. Joan Baughman of 955 N.W. Fourth St.

Serving at the reception were Miss Cathy Ballard, Miss Twila Scruggs, Miss Myra Chente

and Mrs. Dan Griffin. The bride's book was kept by Mary Batista.

The bride chose a green

jersey dress for her going away outfit, with matching accessories.

Following a honeymoon to the west coast, the couple is at home at 295 N.W. First Ave. in South Bay.

BETTE MILDRED PARKER AND TIMMY EUGENE BROOKS UNITED ...in candlelight, double-ring ceremony at the bride's home by the Rev. A. Castor.

The Belle Glade Herald, May 16, 1974, 1B

## Heidtman, Gurney To Be Here For Glades Republican BBQ

Palm Beach County Sheriff William Heidtman will be the guest of honor Saturday at a Glades Republican Club-sponsored barbecue at the city marina which will also feature such notables as U.S. Sen. Ed Gurney.

Heidtman will be recognized by the club, "for a job well done, particularly in regards to his activities in the area of control of drug traffic in Palm Beach County."

"The purpose for the affair," Club President Robert Pease said, is to offer an informal gathering where views and ideas regarding the present party activities can be exchanged and party members and the general public will have the opportunity to meet elected officials and candidates.

Pease said more than 3,000 tickets have been distributed throughout the county and a large turnout of elected officials, candidates, party members and the general public is anticipated.

The barbecue is expected to take place from 4 to 7 p.m. and

PLANNING APPRECIATION BARBEQUE FOR SHERIFF HEIDTMAN ...are Mrs. Charles Schiele, Mrs. Bill Bailey, Mrs. Robert Pease, local Republicans

the proceeds will go into the general treasury of the Glades Republican Club for projects such as sponsorship of teenage representatives to the Florida

State Legislature and operation of a headquarters during election years.

Following the barbecue, Gurney is expected to make

several other appearances in the area.

Tickets for the appreciation barbecue cost \$5 per adult and \$3 per child.

It was a busy week for Glades Day School—both at the senior high school and the elementary school in Pahokee. At the top Celia Echave accepts the coveted cup representing the Valedictorian of the senior class. It is presented by Principal Ms. Miriam Burgess. Ms. Echave achieved a perfect 4.0 grade average during her high school career. Meanwhile, up in Pahokee, the fourth grade class was putting on a play about pollution. And the old saying about "from the mouths of babes" couldn't have been more true as the youngsters came up with some cutting comments about how adults were polluting this old world of ours. There were also some remarks about sewer projects being turned down. A couple litterbugs got scolded at left, while fourth graders dressed up as oil, detergent and acid get ready to "jump into the river" below.

KENNETH BOWERMEISTER (CENTER) SHOWS KIRCHMAN, VERREEN ...troubleshot technique for today's annual Plymouth road scholar testing.

## Survey To Check Acreage

The first estimates of 1974 crop acreages for harvest will emerge from a Department of Agriculture survey to be taken from May 22 to June 4.

R.A. McGregor, in charge of the Florida Crop and Livestock Reporting Service, indicated that more than 1,200 Florida farmers will be contacted personally in the national survey total of 70,000 interviews. Additional information will be collected by mail from other producers.

The number one goal of the June Acreage, Livestock, and Labor Survey, according to McGregor, will be to collect data on the crop acreages farmers planted this season and determine mid-year livestock numbers.

The information will be used as the basis for 1974 crop production estimates to be made public July 11 and livestock estimates starting with the Hogs and Pigs Report on June 21. Additional questions about cattle and hogs will give indications of marketing in the second half of 1974 and early 1975.

"Food production and prices make headlines today—both at home and abroad," comments McGregor. "Our expanding foreign trade and domestic use of grains and soybeans have meant a heightened interest in 1974 farm production. Crop and livestock estimates help bring stability to what otherwise could become a very hectic situation."

The cooperation of Florida producers contacted in this

survey is vitally important since they are part of a national sample selected to represent a cross section of U.S. Agriculture. Only State

published from this survey. For further information contact: R.A. McGregor, Phone (305) 896-3111

## Scouts Sew For Mom

Members of Girl Scout Troop 91 at Rosenwald Elementary School in South Bay remembered Mothers Day by making aprons for their mothers last week. The Brownies and Junior Girl Scouts were, from bottom left, Angela Pace, Jacqueline Thompson, Haven Maria Crespo, Janice Collins, Melissa Gunter, Latangela McCauley,

Marjorie Gregory, Regina Burton, Angela Davis, Sonya Coffie, Parthenia Williams, Stephanie Sampson, Linda Faye Williams, Venetia Morris and Yolanda Sampson. Their teachers are from left, Mrs. Juanita Johnson, Mrs. Verdell Bolden, Mrs. Mary Gunter, Mrs. Mary Jones and Mrs. Sue Clagstone.

## Keep Those Numbers Facing Street

Acting Belle Glade Post Office Officer in charge Kenneth Turner said this week one of the ideas he's trying to promote during National Mailbox Improvement Week is house numbers visible from the street.

Mailbox Improvement Week, set for May 20-25, was set aside by the U. S. Postal Service to promote the improvement of mailboxes around the country.

"It's primarily concerned with

rural delivery boxes," Turner said, "but we have a problem here in Belle Glade with boxes on houses."

Turner said the problem usually comes in the form of an unauthorized type of box but more often from the house number not being visible from the street.

"We've already been in contact with a number of the patrons around town," Turner said, "and, on the whole, they've been cooperative."

The number one goal of the June Acreage, Livestock, and Labor Survey, according to McGregor, will be to collect data on the crop acreages farmers planted this season and determine mid-year livestock numbers.

The information will be used as the basis for 1974 crop production estimates to be made public July 11 and livestock estimates starting with the Hogs and Pigs Report on June 21. Additional questions about cattle and hogs will give indications of marketing in the second half of 1974 and early 1975.

"Food production and prices make headlines today—both at home and abroad," comments McGregor. "Our expanding foreign trade and domestic use of grains and soybeans have meant a heightened interest in 1974 farm production. Crop and livestock estimates help bring stability to what otherwise could become a very hectic situation."

The cooperation of Florida producers contacted in this

## Return Those Books

by Donna Ruth, Librarian

The library would like to make a plea to the citizens of Belle Glade to return all overdue books before you leave town for the summer. If you are worried about having to pay a bid fine, don't, because 50 cents is the limit that can be charged as a fine. So please bring your books back so your friends and neighbors can enjoy them.

On May 12, so long was said to Anna Altman for the summer. Anna and her husband are going to North Carolina for the summer. The library staff will miss Anna and will eagerly await her return in the fall.

On Saturday, May 18, there will be children movie time at

on houses."

Turner said the problem usually comes in the form of an unauthorized type of box but more often from the house number not being visible from the street.

"We've already been in contact with a number of the patrons around town," Turner said, "and, on the whole, they've been cooperative."

The number one goal of the June Acreage, Livestock, and Labor Survey, according to McGregor, will be to collect data on the crop acreages farmers planted this season and determine mid-year livestock numbers.

The information will be used as the basis for 1974 crop production estimates to be made public July 11 and livestock estimates starting with the Hogs and Pigs Report on June 21. Additional questions about cattle and hogs will give indications of marketing in the second half of 1974 and early 1975.

"Food production and prices make headlines today—both at home and abroad," comments McGregor. "Our expanding foreign trade and domestic use of grains and soybeans have meant a heightened interest in 1974 farm production. Crop and livestock estimates help bring stability to what otherwise could become a very hectic situation."

## Wee Care Calls For Cash

Mrs. R. V. Allison said Wee Care, Inc. has raised a total of \$4,425 so far in its drive for donations for the 1974-75 fiscal year.

"We're still shooting for our goal of \$25,000," the Wee Care Board Chairman said, "and the chamber is still accepting gifts for us."

Mrs. Allison said the child care center is shooting for a budget of \$115,000 for the coming year, with everything over \$26,000 coming from state and federal funds.

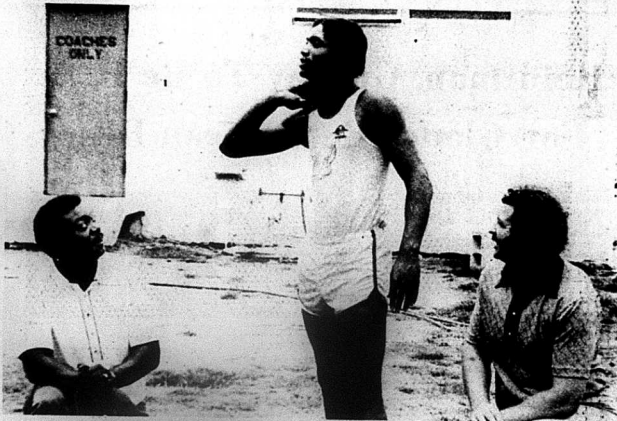

## Census Taken

Two local women will be gathering data on workers holding more than one job and on high school seniors and recent graduates in a survey conducted by the U.S. Bureau of the Census.

Betty Garriga and Mary Caldwell will be helping conduct the nation-wide survey during the week of May 20-24, canvassing households in the area.

# The Sporting Scene

STATE SHOTPUT CHAMPION DAVID JONES JR. SHOWS OFF STYLE  
...to track coaches Johnnie Davis and Jay Seider after clinching state title May 11

## Raider Only County Winner

### Jones First In Shotput

Glades Central High School shotputter David Jones beat his own best mark Saturday to be the only Palm Beach County athlete to bring home a first place from the state track meet in Winter Haven.

Jones, a 6'5", 215 pound junior who has also lettered in football and basketball, heaved the 12-pound steel ball 58 feet, 3.5 inches to bring the championship home with him.

He beat out the next best shotputter by half an inch.

Coach Johnnie Davis said Jones also came close to winning the high jump, clearing the bar at 6'1" but taking it down at 6'2", the winning jump for the meet.

"Coach (Jay) Seider showed him a different style of throwing the shotput," Davis said, "and he beat his own best

mark of the year by more than two feet."

"Last year," Davis said, "he went to state and put the shot 51 feet. The state record is 59 feet, 4.5 inches and I believe David's going to beat that next year. I'm pretty sure he'll be able to clear 60 feet by then."

Davis said he thought Jones would have won the high jump but the junior began complaining just before the final jump of a pain in one of his legs.

In other events, Davis said the track team placed in three other events, picking up 12 points to come in 10th in the meet.

The Raider 880 yard relay team, made up of Jerry Clark, Ricky Booth, Bernard Hammond and Lloyd Haffenden came in sixth place.

Haffenden came in fifth in the

220 yard dash and Jerry Clark came in fifth in the long jump.

Davis said Haffenden has been surprising, coming immediately off the basketball team for his first year of track participation and he said Haffenden stepped in at the last minute in the 880, for Alexander Brown, who had pulled a muscle just before the match.

Davis said Haffenden made his 220 yard dash in 22.9, 1.2 seconds behind the winner, Willie Wilder of Haines City who won and tied his own state record.

He said Clark's long jump was 21-feet, 8.5 inches but added Anthony Smith 21-feet, 5.5 inches was a disappointment. He said Smith has jumped 29 feet, 3.5 inches in a previous meet.

"I think the wind may have gotten to Tony," Davis said. "He goes awful high and there was a 16-mile-an-hour head wind in Winter Haven."

"One thing about it," Davis said, "we're only losing three boys this year to graduation and this year, we came in second place in the conference. Most of the district took home and we were runners-up in the regional meet, following Cham-inade."

## Youth Camp To Open

The summer of '74 can be that same old hanging around the neighborhood looking for something to do, or it can be a fantastic outdoor experience to remember for years, by enjoying a week or month at the Everglades Youth Camp in Palm Beach County, according to Camp Director, Lt. Bob Hickman of the Florida Game and Fresh Water Fish Commission.

Fishing, canoeing, water sports, rifle training, archery and just being with the rest of the gang outdoors is only a part of what the camp offers, topped with comfortable sleeping cabins and excellent meals three times a day.

At \$45 per week, it's an offer you can't afford to miss.

For applications and information, contact the Everglades Youth Camp, 551 Military Trail, West Palm Beach, Florida 33406.

## 132 Raiders Out For Spring Practice

A total of 132 boys greeted Coach Al Wernke and his staff for the opening day of spring football practice. Running in shorts and helmets, there were 26 seniors, 46 juniors and 52 sophomores.

Included in the 26 seniors were 17 returning letter winners from the 1973 squad. Leading the returning letter winners is Rigo Ruiz who took over the starting quarterback spot in the third game of the season and kept it the rest of the year.

The 1974 Raiders will have nine lettermen returning on the defensive squad.

Ends are Cornelius Brown and Willie Terry, tackles are David Jones and Clark Lloyd, and middle guard is Calvin Willis.

Linebackers are Hudall Collins, Charles Small and Michael Washington.

Returning in the secondary for Coach Johnnie Davis are Alexander Brown, Willie Wright, Anthony Parrish, Hector Velez, and Bernard Hammond.

Offensively the Raiders will have to do a rebuilding job with the loss of Jerry Clark, Walter Eastern, Clarence Brown, and Oscar Rodriguez. Tailback Norman Smith and Rigo Ruiz are the only returning hold overs.

Several underclassmen have been impressive in the first week of practice. Fullbacks Howard Moses and Willie

Clark and halfbacks Alexander Brown, Eli Martin and Norman Walker have been impressive. Johnnie Rutledge and David Philpott will give the Raiders much needed depth at the quarterback spot.

Center Dicky Sweet, guard Allen Innes and tackle Charles Ford are the only holdovers in the offensive line. But several underclassmen look good. They are tackle Davey Locke, Alan Baez and Antonio Russell.

David Kinlaw, Lester Finney and Milton Hayden give depth to the guard position. Clark Lloyd, Bruce Rimes and Allen Innes have also been working out at the center position.

Assisting Coach Wernke with the varsity staff are Johnnie Davis, Bill Deany and Jay Seider, also Dave Campbell.

Working with head junior varsity coach Willie McDonald are Riley Foster and Graham Frost.

The junior varsity are working on the same schedule as the varsity, with 16 straight victories over the past two years.

A spring game will conclude the spring practice at 7:30 p.m. Friday, May 24. It will be the second annual Maroon and Gold game with all the proceeds going to the Football Insurance Fund.

It is hoped a large following will take a peek at the 1974 version of the Raiders who will open up against Atlantic Eagles on September 29.

## Limit Pulled Off Okeechobee Bass

Fishermen in the Lake Okeechobee were given the green light Monday to bring in all the fish they want, except big specs, so long as they don't want more than 150 pounds a day.

The limits on such finny fighters as bass, bream, pike and pickerel were removed by the Florida Game and Fresh Water Fish Commission because of falling water levels in Palm Beach, Broward, Collier and Dade Counties.

"As water levels continue to drop, and fish are crowded into canals and remaining open water areas," Everglades Regional Manager, Major Louis F. Gaine said, "the commission feels it is often more than the available water can supply, leading to a genuine die off."

Gaine said a survey of low water conditions in the four county area, and coincidental of similar commission actions during low water periods of 1971 and 1973, led to the action at the commission's May meeting.

In the meantime, only speckled perch fishermen are restricted to the usual 50 per day. Gaine said the exception plus the poundage limit in Palm Beach, Broward, Collier and Dade Counties.

**Analysis Of A Drunk Driver**

New data has been added to the growing evidence that most persons arrested for drunken driving are basically problem people and not the occasional drinker who was unlucky enough to get caught.

An Oregon study of more than 1,000 convicted drunk drivers showed that many had a long history of personal problems, only one of which was drunken driving. The average blood alcohol level at the time of arrest was 0.21 per cent - a level rarely attained among social drinkers, most of whom would be under the table at that level.

Other findings: One of four had a criminal record; three in eight had a previous charge of drunkenness in public, not associated with driving; they had, as a group, three times as many previous traffic violations as the typical driver; one in four was driving with a suspended license or none at all.

**Karen's Korner**

BY Karen Hansford

I'm going to get off the subject of sports a little this week cuz there's something I know would interest some parents who have ever had small kids. There's nothing in this world that can match the wonder and excitement of small child who is seeing things for the first time - such as live animals performing or imaginary characters made life like by costumes.

The other weekend part of our family went to Orlando to visit Disney World. And I don't mean just three or four of us, our family does everything in a big way, including children. There were about 20 of us who stayed at the hotel. Imagine the looks we got as we all went to order something to eat!

Anyway, to get back on the subject we all went to Disney World that Saturday. The fighting with the crowd and the heat was worth it when you took one look at the kids' faces. My little nephew Chad just took it all in. His eyes got round as saucers as Mickey Mouse walked up and shook hands with him.

And all those rides and exhibits which seem to bring the characters into reality! For anyone who is planning to go I recommend the Country Bear Jamboree and the Mickey Mouse Revue. Anyone from a two year old baby to a mother will enjoy these attractions. Bonnie, my niece just laughed and clapped while Lynn and Leigh Lambdin stared holes through them.

Sunday, most of us decided to skip

the heavy crowd and took a short trip over to Sea World, a new aquatic attraction which recently opened.

The admission price was well worth it as we were transported into an ocean(?) of dolphins, seals, a whale, and even penguins - not to mention a gigantic sea lion.

Our first show involved some trained dolphins and a whale named Shamie who was bound to be the next movie star. They had the platform all made up to resemble a movie studio with the whale as the star.

I don't know how long it took to train that whale but someone sure did a remarkable job. The best part though was when Shamie jumped out of the water and kissed - rather licked - this girl standing on a platform. The attendants had picked her at random out of the audience and she looked as if she didn't know whether she wanted to be there or not anyhow, she leaned over and the whale raised up and gave her a big smooch right on her cheek.

I thought about asking them if I could try it and have a picture taken for the newspaper but I clammed up. Better to be here writing a column in one piece than to be looking like someone who just stepped off the set of "Dark Shadows".

Oh yeah, what I'd let you in on some of the great places to visit in good ole Florida.

### COMPARE AND SEE HOW YOU SAVE

NEW WOMAN'S CLUB OFFICERS ARE MRS. McDANIEL, MRS. BALL, Mrs. Chapman, Mrs. Humphries and Mrs. Wedgworth. Mrs. Poston not shown.

## Woman's Club Installs New Officers For 74-75

The Woman's Club of Belle Glade held its regular meeting May 2 in the Civic Center for the purpose of installing the new officers for 1974-75.

A lovely luncheon was catered by Fr. Ed's Restaurant and Carry Out Service. The invocation was given by Mrs. Marvin Unwin.

The hostesses were Mrs. J.L. Murphy, Mrs. Joe Barnett, Mrs. Ivan Van Horn and Mrs. Luther Jones. They did a superb job of decorating the luncheon tables using the club flower, scarlet, hibiscus

and carissa.

Favors made by Mrs. Murphy and Mr. Barnett of nylon net were scattered among the decorations. The favors are suitable for many household uses. The arrangement on the piano using banana flowers and orchids was made by Mrs. Van Horn and he had table arrangement was made by Mrs. Luther Jones.

Mrs. Bert Roemer, accompanied at the piano by Mrs. Gordon Corbin, rendered two solos, "Dear Old Pal of Mine,"

and "Alice Blue Gown," which were enjoyed by all.

Mrs. J.L. Murphy then introduced Mrs. Irvin Zumph who was in charge of installing new officers. Mrs. Frank Dooley, treasurer; Mrs. E.B. McDonald, corresponding secretary; Mrs. James Ball Jr., recording secretary; Mrs. Marian Chapman, second vice president; Mrs. E.D. Humphries, first vice president and Mrs. Ruth Wedgworth, president.

The meeting was well attended and enjoyed by all.

## Chapmans are Hosts

### Steak Dinner Held

Mr. and Mrs. Marian Chapman were the hosts for a steak dinner held for members of Beta Xi and their husbands on May 11.

Large red and white mums centered the serving table. After, Mrs. D'Ouvers and sportily guests enjoyed dinner on the lovely screened patio at tables set for four which were enhanced by miniature red hurricane lamps.

Those attending were Mr. and Mrs. Ken Buchanan, Mr. and Mrs. Lee Burke, Mr. and Mrs. Tom Busbee, Mr. and Mrs. Ron Cameron, Mr. and

Mrs. Paul Dee, Mrs. Edith Freedlund, Mr. and Mrs. George Gartner, Mr. and Mrs. Horace Harris, Mr. and Mrs. Terry Miller, and Mr. and Mrs. Robert Pease.

Officers of Beta Xi installed recently at the home of Mrs. Terry Miller are, from left, Mrs. Ken Buchanan, corresponding secretary; Mrs. Terry Miller, extension officer; Mrs. Don Fliehs, vice president; Mrs. George Gartner, president. Not pictured is Mrs. Robert Pease, treasurer.

NEW BETA XI OFFICERS ARE MRS. BUCHANAN, MRS. HARRIS, MRS. Miller, Mrs. Fliehs, Mrs. Gartner. Not pictured is Mrs. Robert Pease.

## Cindy Wins Award

Belle Glade Rainbow Girls Club Worthy Patron Jerry Gummere, above presents Rainbow Girl of the Year plaque to Miss Cindy Henley, a long-time Rainbow Girl who has held the offices of Worthy Advisor and Grand Representative to Germany. "The award is primarily for leadership," Gummere said. "Most of the girls, once they get to be Worthy Advisor, just sort of fade away, but you always have the one or two who stick around to help with the younger girls and Cindy is a real leader."

## Nu Kappa Meeting Held At Freeman's

The home of Mrs. Robert Freeman was the scene of Nu Kappa's meeting Monday, May 6th. The newly elected officers took over their offices for the first time.

New committee chairmen appointed by the Executive Board were announced and voted on by the members. The duties of each of the committees were discussed while many members contributed interesting and useful ideas that might be used for the upcoming year.

The members also elected to have the new service committee meet and find ways to spend the balance of their money for a special cause or charity before the end of the Sorority year, ending the last of May.

Mrs. Tom Rumlert presented the program of the night and use of color in oil painting. She displayed a variety of paintings that she had painted and different painting techniques were discussed by everyone.

MRS. JOHN PITTS, MRS. DON FLIEHS, MRS. J.D. GOGGANS AND MRS. Hugh Downs were recently installed as new Children's Home Society officers.

## Projects Discussed For 1974

The Glades Auxiliary of the Children's Home Society had the installations of officers Thursday night at the home of Mrs. Bob White. The outgoing president, Mrs. John Hundley, presented an impressive installation ceremony using bells.

The new officers installed are Mrs. Don Fliehs, president, Mrs. John Pitts, vice president, Mrs. J.D. McDonald, treasurer, Mrs. Hugh Downs, secretary, and Mrs. J.D. Goggans, corresponding secretary.

Several projects were discussed for raising money for the coming year and a report was given also on the success of the recent House and Garden Tour, plus the drawing

for the oil painting "Seascape". Mrs. John Hundley, president, was presented a lovely silver bread tray in appreciation for her leadership during the year.

Attending the meeting, in addition to those installed, were Mrs. John Hundley, Mrs. Leland Keene, Mrs. Glen Bair, Mrs. Bob White, Mrs. William Schoenfeld, and Mrs. Earl Meredith.

## Grand Inspection Held

Members of the Belle Glade Order of the Eastern Star received their annual inspection Thursday when Mrs. Mamie Horton, Grand Conductress of the Grand Chapter of Florida visited

the local assembly. Shown with Mrs. Horton, on left, are Belle Glade Eastern Star Worthy Patron and Worthy Matron, Mr. and Mrs. Jerry Gummere.

## What Have We Here

Josie Davis of 866 N.W. Fourth St. picked up some beginners luck Saturday when she went out drift-boat fishing for the first time in her life and came back with a bonito and a king mackerel. Her luck came early, latching onto and boating the two fish before anyone else had a bite, but she said that was it for the day.

## May Is High Blood Pressure Month

Remember those bumper stickers the car makers promised us? Body sections of cars would self-repair themselves after a ding or a bash. But the material had a petroleum base, so now the makers have dropped that plan but are working on another formula that will do the same thing—but without the petroleum base.

One long range result of the no-gas Sundays, will be larger gas tanks on upcoming cars. Detroit figures that many of the gas pumpers will like the day off, and will simply not reopen on Sunday when gas supplies become plentiful again. Most experts think the tanks will go from 3 to five gallons bigger, meaning medium sized cars could cover 250 to 300 miles on one fill up before leaving.

Gas saving tips: Don't let your car idle. If you're waiting to pick up someone, shut down your engine. Idle at stop lights, of course, but not in gas lines. It doesn't take that much more energy to start and stop your car. Idling uses up gas needlessly.

Hard of the 17 most common driving goofs? Here is one of them: driving when you're not really in shape to do it right. This might mean your glasses are lost, or you're tired, or maybe you did hit a drink or two. If you're on any kind of medication which tends to make you sleepy, don't drive then either. Don't goof!

Yes, this is a good time to come in and look at a new car. We have them, big, small, middle. And don't let the gas shortage scare you off a medium or heavier car. While gas is short, and may stay that way for a year or more, there will be enough for everyone. Stop by here at JIM HERRING CHEV-BOLLETT'S and try out a medium sized car.

Drive today the way you wish your wife would. Then we'll all live to see another day.

## EARLY BIRD SPECIAL!

Bring your car in to be serviced before 8:30 A.M. and receive a 10 percent discount off your bill.

Four local girls made their appearance on the social scene during the annual Belle Glade Debutante Ball. The four girls making their grand entrances were Miss Lethonia Joyce Meadows (top left), shown receiving a rose from Woman of the Year Mrs. Vernita Cox; Miss Cynthia Regina McDonald, shown at the center, top, making her bow; Miss Kathleen Carey shown above presenting a rose to Mrs. Sally Kearse, who was sitting in for Miss Carey's mother; Miss Johnetta Rutledge, shown at left being escorted to Mrs. Cox by her father, Johnny Rutledge. The mothers of the girls, shown at top right in their seats of honor (from left), are Mrs. Lillie Mae Meadows, Mrs. Alton McDonald, Mrs. Sally Kearse and Mrs. Ruby Rutledge.

# NATIONAL HOSPITAL WEEK

GLADES GENERAL HOSPITAL

*Belle Glade, Florida*

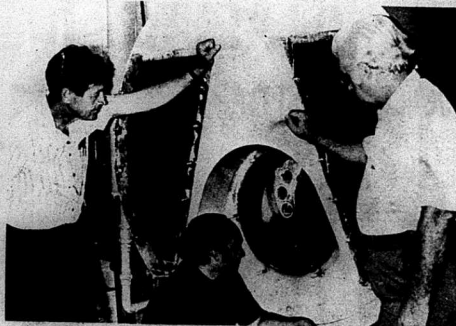

*Glades General Hospital at Belle Glade*

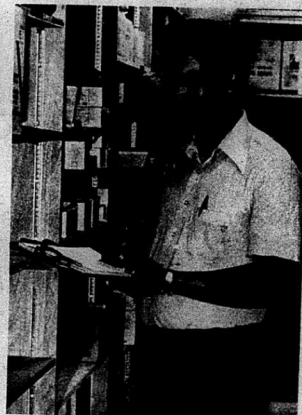

Glades General Hospital is joining the nation's more than 7,000 hospitals observing National Hospital Week, this week. This is an annual event sponsored by the American Hospital Association on behalf of its member institutions to create public interest in and support of the accomplishments and goals of our health care institutions. With the theme of this year's observance, "Get to know us before you need us," hospitals are asking the public to become better informed about the growing responsibilities health care institutions are assuming both inside and outside their walls, and the challenges they face in meeting increasing demands for their services in a time of rapid social and economic change.

**CHIEF ENGINEER WARREN BOST EXAMINES HOSPITAL BOILER**  
...Maintenance Specialists Bobby Bishop and Ed Fullenwider help out

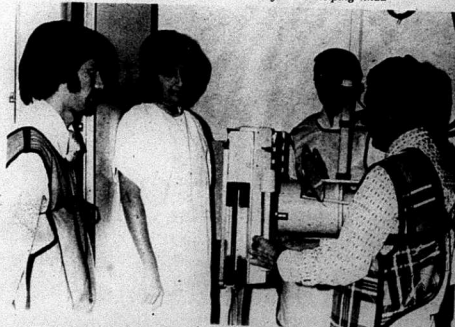

**STOREKEEPER KENNETH JACKSON**  
...takes inventory on thousands of items at hospital

How much do you know about hospitals - about Glades General Hospital? Do you know that the American public is now spending \$75 billion per year for health care? That there are now some 3 million people working in hospitals in the United States in as many as 200 different types of jobs? Are you aware of the rapid increase in the amount and kinds of services being provided by hospitals? For example, today over half of the nation's hospitals have intensive-care units, blood banks, inhalation therapy units, extensive X-ray diagnostic services, and clinical laboratories. These national statistics simply emphasize that health care is rapidly becoming one of the largest U. S. industries, both as an employer and in terms of dollars involved. And these are your dollars - dollars you spend to pay hospital bills and to support federal and state health insurance programs. This should be reason enough for you to want to get to know more about us, as well as about the availability and quality of our health care services for you, your family, for all our citizens.

**DONA SHELTON CHECKS ON BOOKS**  
...she is Medical Records Director at Glades General

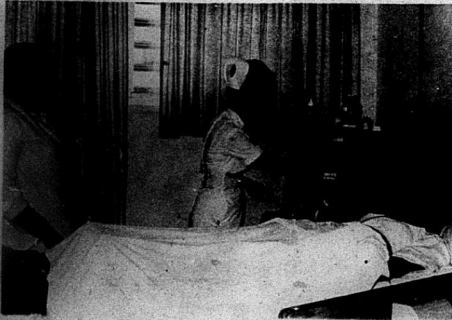

**DR. MIGUEL TOME SUPERVISES ONE OF 6,500 X-RAYS PER YEAR**  
...Chief Tech Joe Crane and Tech Ernie Kornya lend helping hand

**ADMINISTRATOR BEN CLARKE CHECKS UNIT**  
...emergency radio system is new at Glades General

**CARDIAC MONITOR IS OPERATED BY MRS. BONNIE BELL, R.N.**  
...this past season nine nurses attended month long classes on cardiac care

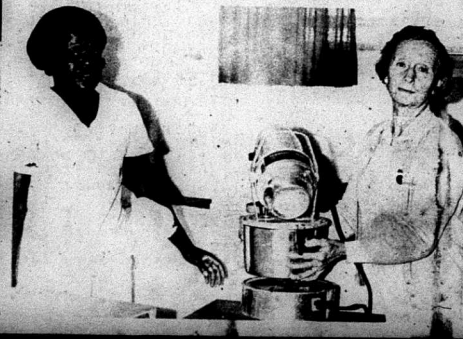

Coming closer to home, how much do you know about Glades General Hospital? Last year almost 2,000 patients were admitted and emergency visits average 1,200 monthly, about 40 per day. This required the preparation of 60,000 meals and 246,000 pounds of laundry, and the services of 146 personnel from 11 departments. Recent improvements in services include the establishment of an Inhalation Therapy department, the installation of cardiac monitoring equipment, and the approaching completion of a radio communication system which will link the Glades with hospitals on both coasts during emergencies. To maintain a continued community assurance of quality health care the hospital was recently recertified by the Joint Commission on the Accreditation of Hospitals for the maximum period of two years. This accreditation is entirely voluntary and requires meeting exacting standards in every area in which the hospital functions. To really know your hospital is to know those people who keep it running 24 hours a day, 365 days per year, the Board of Trustees, the medical staff, the employees, the hospital auxiliary. We invite you to "GET TO KNOW US, BEFORE YOU NEED US".

**CHEF REUBEN JOHNSON WHIPS UP MEAL**  
...over 60,000 meals are served at hospital each year

**ROOM FOGGER PREVENTS CONTAMINATION IN PATIENTS' ROOMS**  
...housekeeping charged with maintaining standard of cleanliness at hospital

At top left Mrs. Dealie Click demonstrates positive pressure breathing treatment on Wilhelms Feible. At the top right Dr. Mario Ramos, Pathologist, discusses one of the bacteriological cultures grown to assist in determining the proper medication with Tech. Betty Kidder. And at the lower left Terry Palmer, comptroller, and clerks Cheryl Waters and Verdie Hart test the Hospital's E-4000 accounting machine in its new location.

Glades General Hospital would like to thank the following Glades' businesses for helping sponsor this special edition:
